

raw documents

```
graph LR; A[raw documents] --> B[time-safe retrieval]; B --> C[prompt / context]; C --> D[LLM output]; D --> E[structured signal];
```

The diagram illustrates a five-step process flow. It begins with 'raw documents' in a light blue box with a dashed border. A green arrow points to 'time-safe retrieval' in a light green box with a thick green border. A blue arrow points to 'prompt / context' in a light blue box with a thick blue border. Another blue arrow points to 'LLM output' in a light blue box with a thick blue border. Finally, a green arrow points to 'structured signal' in a light green box with a thick green border.

time-safe retrieval

prompt / context

LLM output

structured signal
