

limit orders

price-time queues

market order

fills + residual book

```
graph LR; A[limit orders] --> B[price-time queues]; B -.-> C[market order]; C -.-> D[fills + residual book];
```

The diagram illustrates a four-step process flow. It begins with a solid blue box labeled 'limit orders'. A solid blue arrow points to a light blue box with a dashed border labeled 'price-time queues'. From there, a dashed orange arrow points to a light orange box with a dashed border labeled 'market order'. Finally, a dashed green arrow points to a light green box with a solid border labeled 'fills + residual book'.
