

assumptions

```
graph LR; A[assumptions] --> B[claim]; B --> C[proof]; C -.-> D[counterexample];
```

The diagram is a horizontal flowchart with four rectangular boxes. The first box, labeled 'assumptions', is light blue with a dashed dark blue border. A solid blue arrow points from its right side to the second box, labeled 'claim', which is light blue with a solid dark blue border. A solid dark green arrow points from the right side of the 'claim' box to the third box, labeled 'proof', which is light green with a solid dark green border. A dashed orange arrow points from the right side of the 'proof' box to the fourth box, labeled 'counterexample', which is light orange with a dashed dark orange border.
